I want to go into career where I can work within I.T. I want to be able to know how to put a computer together and know components of a computer while also knowing how the software works within a computer.

EXPERIENCE

JUNE 2017 – APRIL 2018

I.T. INTERN, NEW MEXICO DEPARTMENT OF WORKFORCE SOLUTIONS

I got hired for an Internship at New Mexico Department of Workforce Solution in the I.T Department and worked on building a website using Microsoft Visual Studio and SQL Server Management Studio

EDUCATION

MAY 2017

DIPLOMA, RIO GRANDE HIGH SCHOOL

April 4th-July 15th, 2018

CERTIFICATE, CNM STEMulus, DEEP DIVE CODING BOOT CAMP

SKILLS

- Power Point
- Microsoft Outlook
- SQL Server Management Studio
- Google Docs
- PHP Storm
- MySQL
- Bootstrap
- CSS
- Microsoft Visual Studio
- Adobe Photoshop
- Microsoft word
- HTML 5
- Git Bash
- PuTTY
- Insomnia

ACTIVITIES

- I obtained a Silver Certificate in the Work Keys Assessment where I got a 4/6 on Locating information, 5/7 on Reading for information and 5/7 on Applied Mathematics

- I contributed in helping the Rio Grande High School Snack Bar with stocking drinks and snacks as well as ran the cash register during my senior year.
- I volunteered at the Rio Grande High School parent center where I organized and filed papers for the counselors
- In my 6th grade year at Ernie Pyle Middle School I attended the Annual 2011 Robo Rave with my robotics club where we programmed robots to achieve different tasks.
- I completed a 10-week coding boot camp from April 4th to July 15th, 2018. The class taught me programs like HTML 5, PHP, CSS and other coding programs.
- I coded my own website from scratch that shows a description about myself that shows my personal activities/accomplishments as well as my professional activities/accomplishments.
